Profile Summary

I am a cybersecurity student with hands-on experience in SOC workflows, SIEM deployment, complemented by specialized training in AWS cloud security. Passionate about designing systems that are both secure by design and cloud-optimized, with a proven academic record (GPA 3.37) and scholarship recognition. Seeking to apply my technical skills and proactive mindset to real-world security challenges.

Skills & Interests

Technical Skills:

- **Cloud Platforms & Services:** AWS (EC2, VPC, S3, RDS, Lambda, IAM, CloudWatch, API Gateway)
- **Cloud Architecture & Security:** AWS Well-Architected Framework, Serverless Architecture, Cloud Monitoring & Alerting, Network Segmentation, Cost Optimization, Infrastructure Resilience
- **Cloud Security Practices:** DevSecOps fundamentals, container security basics, cloud IAM, data encryption
- **Security Tools & OS:** SIEM (Splunk/Wazuh), Wireshark, Nmap, Palo Alto Firewall, Burp Suite, Windows, Linux (Kali, Ubuntu)
- **Programming & Scripting:** Python, Bash, JavaScript, C#
- **Methodologies:** Threat Intelligence, Vulnerability Assessment, SOC Operations, Technical Documentation

Soft Skills:

- **Problem-solving, Team Collaboration, Attention to Detail, Technical Communication**

Education

Ngee Ann Polytechnic

Apr 2024 – Present

Diploma in Cybersecurity and Digital Forensics

- Specialising in Cloud Security
- Expected to graduate in 2027
- Relevant Modules: Cybersecurity Operations and Threat Intelligence, Ethical Hacking, Cloud Architecture & Technologies, Cloud Security Tools & Technologies, Cloud Native Architecture Security

Whitley Secondary School

Jan 2020 – Dec 2023

GCE 'O' Level Certificate

- L1R5: 17

Achievements

- **Nanyang Hwu Clan General Association Polytechnic Scholarship (Nov 2025) – Awarded for Outstanding Academic Performance.**
- **Bronze Medal – Inter-School Games, Representing School of ICT (July 2024).**
- **Recognition for Contribution – Pathlight School Cyberbullying Workshop (May 2025).**

Certifications

- **Using Generative AI to Secure the Network | LinkedIn**
- **Burp Suite Essential Training | LinkedIn**
- **C#: Applied Data Structures (2019) | LinkedIn**

Relevant Projects

AWS Cloud Architecture & Serverless Implementation | School Project

- Designed and deployed a highly available, auto-scaling VPC infrastructure on AWS hosting a .NET Core 6.0 web application, (EC2, ELB, Auto Scaling Groups, CPU scaling policies)
- Implemented AWS CloudWatch dashboards and SNS alerts for real-time monitoring of CPU utilization, network traffic, and instance health.
- Developed a serverless data pipeline using Lambda + API Gateway + DynamoDB to capture and retrieve product records via RESTful endpoints.
- Automated image processing by deploying a Lambda function triggered by S3 uploads to apply watermarks.
- Applied AWS Well-Architected Framework pillars throughout via documented architecture decisions and conducted failover and load testing.

Ethical Hacking & Penetration Testing Project | School Project

- Conducted a simulated wireless penetration test on a Windows Server environment using Kali Linux and Metasploit.
- Identified critical vulnerabilities in the network configuration and documented mitigation strategies to secure the server.
- Gained practical understanding of vulnerability assessment, exploitation techniques, and security hardening.

Security Operations Centre (SOC) Simulation | Cybersecurity Operations Module

- Deployed and configured SIEM tools to monitor network traffic and detect potential security incidents.
- Analysed threat intelligence feeds to identify indicators of compromise (IoCs) and practiced incident response procedures.
- Collaborated with my group members to simulate real-world SOC workflows and log analysis.

Co-Curricular Activities & Community Service

Cyberbullying Awareness Workshop | Pathlight School

22 May 2025

- Recognized for contribution to organizing and delivering a cybersecurity awareness workshop for students.
- Educated participants on online safety practices and the dangers of cyberbullying, enhancing community digital safety.

Badminton Recreational Club | Ngee Ann Polytechnic

2024 – Present

- Actively participate in weekly club sessions to improve skills and promote teamwork.
- Developed discipline, consistency, and collaboration through recreational matches and inter-school competitions.
- **Achievement:** Won Bronze Medal in Inter-School Games representing School of ICT (July 2024).

Whitley Secondary School

Jan 2020 – Dec 2023

Badminton CCA | Member

- Collaborated with the committee to organize the CCA Open House booth, managing logistics and setting up promotional materials.
- Engaged with prospective students during recruitment drives, effectively communicating club benefits to attract new members.
- Demonstrated teamwork and commitment by balancing training schedules with organizational responsibilities.

Work Experience

Part-Time Warehouse Assistant | ESG Asia Pacific Pte Ltd

Sep 2024 – Oct 2024

- Demonstrated reliability, teamwork, and attention to detail in completing assigned tasks in a fast-paced environment.
- Maintained accuracy and efficiency in inventory management and daily operations, ensuring minimal discrepancies.
- Developed strong operational discipline and process efficiency
